FERMENTATION SUPPLY

Wooden Barrel Accessories

Silicon Ventilating Bung

\$6.95 each

Fits most oak barrels and variable capacity tanks. This breathable silicon stopper's unique design allows CO2 pressure to escape while keeping O2 and contaminants out.
Top: 2 1/4" Bottom: 1 7/8"

BARREL OxyFresh (50lb pail)

\$115.00

Barrel OxyFresh is quickly gaining recognition as the ideal way to clean barrels — inside and out. Based on traditional sodium percarbonate technology, Barrel OxyFresh is enhanced to gently accelerate the active oxygen to safely and effectively remove off-flavors and dissolve tartrates.

Bung Puller

\$280.00

Prevents cracked staves, broken bungs, splinters, and chips falling into the barrel. Machined screw point is made of hardened steel; body is cast from Gray iron. No pounding; saves wear and tear on barrels. Works like a corkscrew...

Bung Starter

\$65.00

Used for tapping bung stave to remove bung. Smooth, natural finish. "Dovetail" handle. Overall length: 20.5"

Hoop Driver

\$125.00

Heat treated driver head provides excellent durability. Socket offers grooved driving face 2.75" long with slight radius to better fit hoop shape. Custom hardwood handle fitted with steel ring provides additional support. Use for driving, tightening, loosening and removing barrel hoops.

Enartis Enoplastico Special (18oz)

\$14.95

This stiff paste is odorless and impermeable, containing ultra pure oily substances and adhesive powders. The product's pasty texture makes it particularly suited to sealing vat doors, ensuring and perfect seal.
